SAT-II, NEET & IIT, JEE Coaching Classes

Dear Parents

It has been the continuous request from parents to start coaching classes for SAT, NEET and IIT, JEE examinations in our School. We have made efforts for providing effective class to our students and have made arrangements with leading coaching institutions in India. Based on this in the month of May it was communicated to the students that we are starting the coaching programme for the above exams. Only few students have come forward for this coaching except for SAT preparation. Accordingly, in May and June we have conducted classes for SAT successfully. If there are sufficient numbers of students to join, the School is willing and ready to start the coaching programme for all the above exams. Study materials, work sheets and sample question papers are made available in the School. It is advised that students who are interested in any of the above classes to register their names with the respective HMs on or before 09 October 2016. It is proposed to conduct classes from Tuesday 11 October 2016. Parents are advised to encourage and motivate their children to join the class and get prepared well for the competitive exams coming up in the months of April and May 2017.

Expecting the support and co-operation from the parents.

With Regards

Dr. E K MOHAMMED SHAFFE
Principal & H.O.I.
