I. FILL IN THE BLANKS:

1. Rainwater gets collected in _______________ and _______________.

2. In cities water is collected in _______________.

3. Most important way of conserving water is _________________.

4. Water helps us to _______________ our food.

5. ________________ is a life giver.

6. Water helps us to eliminate _______________ matter from our body.

7. Underground water is taken out with the help of _______________ and _______________.

8. Water is _________________.

9. ________________ is the home to many plants and animals.

10. The main source of water is _________________.

II. CHOOSE THE CORRECT ANSWER:

1. Liquids are measured in _________________.
   (centimeters, litres, kilograms)

2. Water dissolves _______________ of the soil.
   (nutrients, waste matter, dust particles)

3. In cities, water is supplied through _________________.
   (handpumps, tubewells, pipelines)

4. Water helps to carry _______________ to different parts of the body.
   (foods, nutrients, waste)

5. _______________ need water to make their food.
   (plants, animals soil)
III. NAME THE FOLLOWING:

1. Any two sources of water.

2. Any two rivers of India.

3. Any two uses of water.

4. Two important methods to conserve water.

IV. WRITE TRUE OR FALSE. IF FALSE, WRITE THE CORRECT STATEMENT:

1. We should not drink clean water. ( )

2. Plants and animals cannot live without water. ( )

3. We should reduce the wastage of water. ( )

4. We should keep the tap running while brushing the teeth. ( )

V. MATCH THE FOLLOWING:

1. Underground water sources of water ( )

2. Water conservation water ( )

3. River precious ( )

4. Life giver tubewells ( )

5. Water recycling ( )
VI. GIVE REASON:

1. Water has to be conserved because

2. We should not let taps run because

3. Water should be stored only in clean containers because

VII. QUESTION AND ANSWERS:-

1. Give any 4 uses of water.

2. What is rainwater harvesting?

3. List 4 ways to save water.
VIII. IDENTIFY THE FOLLOWING PICTURES:

1. 
2. 
3. 

IX. GRID:

DOWN

1. Water is taken out from the ground with the help of ________________
2. ________________ is the main source of water.
3. ________________ is another way of conserving water.

ACROSS

4. ________________ carries the nutrients to different parts of a plant.
5. Rainwater gets collected in ________________
6. We should use a ________________ and a mug to have a bath.
Q I. FILL IN THE BLANKS

1. A letter box is ____________ in colour.

2. We buy postcards, envelopes and stamps from the ________________.

3. A ________________ brings us letter, money orders, telegrams and parcels.

4. The ________________ office helped us in sending our telegrams.

5. We put stamps on the ________________ corner of the envelope.

6. Letters take a long time to reach their ________________.

7. The ________________ in a telegram should be in few words.

8. We needed to pay for ________________ while sending a telegram.

9. Now a day's ________________ phones have become popular.

10. E-mail is sent through a ________________.

Q II. FILL IN THE BLANKS CHOOSEING THE CORRECT ANSWER

FROM THE BOX.

\[
\text{global information, radio, post offices, broadcast, internet, network, } \\
\text{means of communication, television.}
\]

1. Many educational programmes are ________________ over radio and television.

2. __________ and __________ are the best means of communication.

3. We can get information any time about anything with the help of ________________.

4. ________________ keep us in touch with our friends and family.

5. Internet is computer based ________________ system.

6. India has the biggest ________________ of ________________ in the world.
Q III. ANSWER IN A WORD OR A SENTENCE.

1. What is full form of STD? ________________________________.

2. Who invented telephone? ________________________________.

3. What do we use to send messages or information to a large number of people at different places at same time? ________________________________.

4. Who invented the television? ________________________________.

5. What is full form of ISD? ________________________________.

7. When was Indian Postal System founded? ________________________________.

8. What do we use to send a letter to a foreign country? ________________________________.

9. What is short form of Postal Index Number? ________________________________.

10. Which system links most of the towns and village in our country? ________________.

Q IV. GIVE REASON

1. We should write the address clearly on a letter so that ________________________________

   ________________________________.

2. Person who cannot read and write can learn a lot from radio and television because ________________________________.

3. We can get information any time with the help of the internet because ________________

   ________________________________.

4. Mobile phones are more comfortable than landline telephones because ________________

   ________________________________.
Q V. WRITE TRUE OR FALSE AND CORRECT THE FALSE STATEMENT.

1. To make a direct call to other countries we use STD. (  )

2. We use an aerogramme to send a letter to another country. (  )

3. We send FAX through a fax machine. (  )

4. We can buy postcards, envelopes and stamps from a police station. (  )

Q VI. Match the following

1. E-mail  Telephone (  )

2. News channel  Guglielmo Marconi (  )

3. Letter  Computer (  )

4. Radio  Post Office (  )

5. STD  Television (  )

Q VI. ANSWER THE FOLLOWING

1. What are the two types of telephone systems? How they are useful?

Answer: ___________________________________________________________

_________________________________________________________________

_________________________________________________________________

_________________________________________________________________
2. What is Internet? Give any two uses of Internet.

Answer: __________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

3. Define communication.

Answer: __________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________

4. Why the world is called a global village?

Answer: __________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
_________________________________________________________________________________
CLASS III  EVS WORKSHEET- UNIT -10  L-13 WORLD OF PLANTS

Q I. FILL IN THE BLANKS

1. The plants which have thick trunks are called _________________.

2. Shrubs have _____________ and hard ________________ stems.

3. ________________ have soft and green stems.

4. Plants which grow around some ________________ are called climbers.

5. The part of the plant above the ground is called _________________.

6. Plants which grow along the ground are called _________________.

7. Neem is used as a _________________.

8. Rose plant is a _________________.

9. Mint leaves are used to make _________________.

10. ________________ hold the plant firmly in the soil.

11. The roots suck in ________________ and ________________ from the earth.

12. The green colouring matter in the leaves is called _________________.

13. Most leaves have different _________________.

14. Most trees shed their leaves in ________________ season.

15. Plants are able to ________________ water, when they shed their leaves.

16. ________________ is given out by plants during photosynthesis.

17. ________________ leaves are used to colour the hand and feet.

Q II. NAME THE FOLLOWING

1. Two creepers: _________________.

2. Two uses of leaves: ________________, _________________.

3. Two parts of the shoot system: _________________.

9 of 12
4. Two herbs: ___________________________.

5. Two climbers: ___________________________.

6. Two shrubs: ___________________________.

7. Two trees: ___________________________.

Q III. WRITE TRUE OR FALSE AND CORRECT THE FALSE STATEMENT.

1. Leaves prepare food for plant. ( )

2. Shoot is the part of the plant below the ground. ( )

3. Carbon dioxide is taken in by the plants during photosynthesis. ( )

4. Trees do not shed their leaves. ( )

5. Watermelon and pumpkin are creepers. ( )

6. Shrubs have soft and green stems. ( )

7. Rose and jasmine are used to make perfume. ( )

8. The process of making food in the plants is called photosynthesis. ( )

9. Betel leaf is used as a plate. ( )
8. What are the functions of stem?
9. Write two ways to save paper.
10. What are the functions of roots?
11. In which season do the trees shed their leaves and how this helps the trees?
12. What is chlorophyll?

VII. DRAW COLOUR AND LABEL THE PARTS OF THE PLANT.
IV. GIVE REASON
1. Leaves are called food factories of a plant because

2. Climbers need support because

3. Creepers grow along the ground because

V. MATCH THE FOLLOWING
1. Tulsi and Neem - Oil ( )
2. Mustard and Ground Nut - Perfume ( )
3. Turmeric and Coriander - Medicine ( )
4. Rose and Jasmine - Spices ( )

VI. ANSWER THE FOLLOWING
1. What are trees? Give two examples.
2. What are herbs? Give two examples.
3. What are shrubs? Give two examples.
4. Define photosynthesis.
5. How do the climbers differ from the creepers?
6. What are the functions of leaves?
7. Write three uses of leaves with examples.
