L - 15 BIRDS

I. FILL IN THE BLANKS :

1. Birds have _____, _____, _____ and _____ legs.
2. Birds have _____ bones.
3. Flight feathers are found in the _____ of a bird.
4. Birds have no _____ they use their _____ to eat.
5. Birds use their _____ to protect themselves from _____.
6. Birds use their beaks to _____, _____, _____, and _____ the food they eat.
7. The beak of a bird is adapted to the _____ they eat.

II. MATCH THE FOLLOWING:

- | | |
|-----------------------------------|-------------------|
| 1. Can rotate its neck backwards | pigeon |
| 2. Imitate our voice | vulture |
| 3. Strong, sharp and hooked beaks | owl |
| 4. Short, hard and pointed beaks | parrots and mynah |

III. WRITE THE KINDS OF BEAKS OF THE FOLLOWING BIRDS

1. Woodpecker _____
2. Parrot _____

IV. WRITE TRUE OR FALSE (CORRECT THE WRONG STATEMENT) .

1. A duck has a broad flat and spoon like beak _____

2. Body feathers are short and fluffy _____

3. Sparrows and peacocks have short hard and pointed beaks _____

4. A parrot's beak helps it to catch insects _____

5. Different birds have different kinds of beaks and claws _____

L - 21 THE EARTH AND THE MOON

I. FILL IN THE BLANKS :

1. The earth is slightly _____ at both ends and these ends are called _____.
2. The earth looks flat to us but it is really _____.
3. The earth spins on its _____.
4. The earth revolves round sun from _____ to _____.
5. The movement of the earth round the sun is called _____.

6. Revolution of earth causes _____.
7. The earth gets its light from the _____.
8. The part of the earth which faces the sun has _____ and the other part has _____.
9. A body that revolves round a planet is called _____.
10. The moon revolves round the earth once in _____ days.
11. Every night moon appears to change its _____.
12. The amount of moons lighted surface we can see from earth is called _____.

II. ANSWER IN ONE WORD:

1. When we do not see the lit up face of the moon at all _____.
2. Group of stars forming an interesting pattern in the sky _____.
3. The whole lit up face of the moon _____.
4. Imaginary line between North Pole and South Pole _____.
5. The air surrounding the earth _____.

III. STATE WHETHER TRUE OR FALSE. (CORRECT THE FALSE STATEMENT)

1. About two fourths of the earth's surface is covered with water. _____

2. Moon is earth's nearest neighbor in space _____

3. The movement of the earth on its axis is called revolution _____

4. Half moon comes soon after new moon _____

IV. GIVE REASON:

1. The earth looks flat to us because _____

I. FILL IN THE BLANKS

1. Our body functions like a _____.
2. Human body is made up of different kinds of _____.
3. Eyes, nose, ears, tongue and skin are _____.
4. All sense organs send their own messages to the _____ through _____.
5. Our eyes are like a _____.
6. The skin at the tips of _____ is the most sensitive .
7. Sense organs make us aware of our _____.
8. _____ system protects all the organs inside the body.
9. Our body uses _____ to burn food and release _____.
10. The organs of _____ system help to produce babies.

II. NAME THE DIFFERENT SYSTEMS OF OUR BODY

1. Gives shape and support to our body. _____
2. Helps the body and its parts to move _____
3. Helps to breathe in fresh air and supply oxygen to all parts of the body _____.
4. Consists of heart and blood vessels _____.
5. Helps to learn, think and act _____.

III. WRITE WHETHER TRUE OR FALSE. (CORRECT THE FALSE STATEMENT)

1. Different organs form different systems of the body. _____

2. The function of circulatory system is to make food and make it useful to our body. _____

3. The chest contracts when we breathe in and expands when we breathe out. _____.
4. The vessels taking blood away from the heart are called arteries. _____

IV. MATCH THE FOLLOWING

- | | |
|--|------------------|
| 1. Sends pictures of all the things around us to the brain | ears |
| 2.Helps to feel heat, cold, and pain | brain |
| 3.Receive and sends sounds and messages to the brain | excretory system |
| 4. Receives and gives orders for action | eyes |
| 5. Removes things harmful to our body as waste | skin |

V. Identify the pictures

For picture identification refer the pictures given in the text book like

1. Picture of different types of houses.
2. Picture of hand pump , tube well and sources of water.
3. Types of plants like climbers n creepers
4. Beaks of birds
5. Systems of our body
6. Constellations etc.

VI. Draw color and label

1. Different phases of the moon.
2. Parts of a plant.
3. Stilt house, Igloo
4. Sense organs

LEARN ALL THE QUESTION AND ANSWERS FROM THE NOTE BOOK AND READ THE TEXT BOOK THOROUGHLY.
