Who said to whom? What did the person mean by these words?

2. "You must be careful, Bisnu."

Who said this to whom? Why did the speaker say so?

PART – E

Fruit Fly Fix

Read the given passage carefully:

(5 marks)

It is breakfast time. You have been looking forward to eating a nice ripe banana ever since you woke up. Just when you reach for the delicious piece of fruit on your counter, you see something that makes you much less hungry: a swarm of fruit flies!

Fruit flies are tiny insects that are attracted to ripe or rotting fruits and vegetables. The flies not only eat the fruit, they also lay their eggs there. A single fruit fly can lay up to 500 eggs on the surface of a piece of fruit. Within eight days, the fruit flies that hatch from these eggs are full adults that can then lay their own eggs. As you can see, what might start out as a small fruit fly problem can become very large very quickly.

Although there is a chance fruit flies can carry germs on to your food, this is not very likely.

Fruit flies are annoying, but they probably will not hurt you. Because they are such a **nuisance**, however, most people want to get rid of these pesky bugs as quickly as possible. Some people use pesticide sprays on the fruit flies. Although this will kill the flies, it will also spread harmful poison all over your kitchen. Luckily, there is also a completely safe way for you to get rid of fruit flies in your house.

The first step is for you to remove all fruits or vegetables from your counter. Store these items in the refrigerator or in sealed containers. Clean up any spilled juice or bits of food that might be on the floor. Take out the trash and empty the recycling bin. Wash any dirty dishes that are in your sink. Doing all of these things will stop new fruit flies from finding food or places to lay their eggs.

Based on the above reading answer the questions given below:

1. What are fruit flies? (1 mark)

2. What will happen if you use pesticides to kill the flies? (1 mark)

3. Give any two ways in which one can get rid of fruit flies in the house. (2 marks)

4. Tick the right answer (1 mark)

As used in paragraph 3, a **nuisance** is something that

- a) grows fast
- b) can be dangerous
- c) bothers you
- d) is very small
