- 9) _____ damages buildings and forest.
- 10) _____ are the substance or gases that cause pollution.

II Match the following:

- | | |
|-------------------------|------------------------|
| 1) Top layer | a) Soil unfit for use |
| 2) Chemical fertilizers | b) Save forest |
| 3) Chipko movement | c) On which crops grow |
| 4) Loud speaker | d) acid rain |
| 5) Air pollution | e) noise pollution |

III Say true or false and correct the false statements

- 1) When nitrogen oxide and carbon dioxide mix with water vapor in the air, they form acid. _____

- 2) Water in its pure form is a life giver. _____

- 3) Loud music is not a source of water pollution. _____

- 4) Dust from streets smoke from factories and vehicles are not pollutants. _____

L.22 SOLAR SYSTEM

I. Fill in the blanks

1. The _____ is the star nearest to the earth.
2. _____ helps us in communication, weather forecasting etc.
3. Earth spins like a top from _____ to _____.

- _____ are elliptical in shape.
- An imaginary line in the southern hemisphere is called _____.

II. Answer the following:

- The First satellite launched by India. _____
- Scientists who study about stars. _____
- The inner most part of the Earth. _____
- Hot molten rock. _____
- The movement of earth round the sun in its own orbit. _____

III. Write True or False and correct the false statement .

- Days and nights are not divided equally into twelve hours each in most part of the Earth. _____

- The mantle of the earth is made up of mostly nickel and iron. _____

- Axis of earth is tilted. _____

- Venus does not have moons. _____

- Revolution of earth causes day and night. _____

IV. Give reason:

- We do not see stars during the day because _____
- Stars are huge ball of hot gases but they appear to be small because _____

V. Name the following:

- I am the first artificial satellite launched by the Russians on 4th october 1957. Who am i?

- I was a planet. Now I am disqualified as I take 248 years to revolve round the sun. Who am I?

VI. Draw and label imaginary line on earth.

- Read the Textbook thoroughly & Practice the Exercises**
- Learn from The Notebook and Worksheets**
- Practice the Drawing ,Colouring and Labeling of the Diagrams related to the Lessons**
