

**INTERNATIONAL INDIAN SCHOOL, DAMMAM  
UPPER PRIMARY SECTION, WORKSHEET  
CLASS V GENERAL SCIENCE(2017-2018)**

**L.2-ANIMAL LIFE**

**I. Fill in the blanks :**

1. Fish use \_\_\_\_\_ to move in water.
2. \_\_\_\_\_ is the greatest migrator.
3. Under the water, frog breathes through its \_\_\_\_\_
4. \_\_\_\_\_ migrates from Canada to Mexico.
5. \_\_\_\_\_ is the greatest migrator..
6. Mosquitoes have \_\_\_\_\_ mouth organs for sucking blood.
7. Oxygen carrier of insects.
8. Thin overlapping plates, covering and protecting fishes and reptiles are called \_\_\_\_\_
9. The \_\_\_\_\_ of monkeys are modified for catching the branches of trees.
10. Penguin uses their \_\_\_\_\_ as flippers to swim in water.

**II. Write True or False:**

1. Insects have six pairs of legs. \_\_\_\_\_
2. Termites have no wings at all. \_\_\_\_\_
3. Fish moves with the help of gills. \_\_\_\_\_
4. Turtle has paddle like limbs. \_\_\_\_\_
5. An eel spend its life in Sargasso sea until an adult.

**III. Name the following:**

1. Animals which gnaw their food. \_\_\_\_\_
2. Animals that live both on land and water, \_\_\_\_\_
3. Birdman of India. \_\_\_\_\_
4. Breathing organ of amoeba. \_\_\_\_\_
5. Long coiled sucking tongue or tube in butterflies. \_\_\_\_\_

**IV. Define:**

1. Migration
2. Omnivorous
3. Habitat

**v. Give reason:**

1. Insects blood is not red in colour.
2. Gills are red in colour.

**VI. Answer the following:**

1. How does locust migration affect farmers?
2. Distinguish between Carnivores and Herbivores.
3. Oxygen is essential to produce energy in the body of animal, why?
4. Why do animal need to move?
5. What helps a bird to fly?

### L.3 –Our Universe

#### **I. Name the following:**

1. The path followed by planets while revolving around the sun. \_\_\_\_\_
2. The first man to step on the Moon. \_\_\_\_\_
3. India's artificial satellites. \_\_\_\_\_, \_\_\_\_\_
4. The second full moon occurs in a month is called \_\_\_\_\_ \
5. The place beyond the blanket of atmosphere. \_\_\_\_\_

#### **II. Fill in the blanks :**

1. Moon is \_\_\_\_\_ kilo meter away from earth.
2. The craters are formed when \_\_\_\_\_ crashed in to the moon's surface.
3. The moon temperature in night-time is a minimum of \_\_\_\_\_
4. \_\_\_\_\_ is the first man made satellite.
5. The moon completes its revolution around the earth in \_\_\_\_\_ days.
6. In a lunar eclipse, \_\_\_\_\_ comes in between the sun and the \_\_\_\_\_.
7. The highest tides occurs at the time of \_\_\_\_\_ and \_\_\_\_\_.
8. India launched spacecraft \_\_\_\_\_ on October 22, 2008.

#### **III. Give reason:**

1. Nobody will hear you when you shout on the moon.
2. A person who weighs 30 kg on the earth's surface will weigh only 5 kg on the surface of moon.

#### **IV. Define:**

1. Satellite
2. Phases of moon
3. Tides
4. lunar eclipse

#### **V. Answer the following: Define:**

1. Is there any life on moon? If no Why?
2. Describe the surface of moon.
3. When does solar eclipse occur? Draw, colour and label solar eclipse.
4. Distinguish between high tide and low tide.
5. What are the uses of artificial satellites?
6. When does lunar eclipse occur? Draw, colour and label lunar eclipse.
