Dear parents

Hearty greetings to you all as your wards are reaching in their most important and crucial years of studies in this school. It is the time to take care of their studies and performance in class XI& XII from the very beginning which will give us big relief from the last minute difficulties and problems. You may need to send your wards for different coaching or private tuitions throughout the week for additional help in the respective subjects which is difficult for the parents to arrange transport facility with additional financial burden. Seeing the difficulties, School has decided to start extra coaching classes with a reasonable fees and transport facility. This will provide you the best coaching by the teachers of your choice within the school campus. The details of the program is given below,
