# ***Message from the Principal***

***Dear Students,***

The academic year 2020-2021 was a year full of challenges and uncertainties. Homes have become classrooms and formal learning that takes place in schools in the form of face-to-face interaction between teachers and students has been replaced by the use of various technological devices.

These are challenging times, but I know that you are all strong enough to face it. Keep an open mind and stay positive.

The present situation is an opportunity to focus on those aspects of learning such as values, feelings, and personal social qualities which at times are un-emphasized.

Use this time to learn, reflect, create, appreciate those around you and be grateful for all of the blessings we share.

You are so very important to us and we want you to gain as much from this situation as possible.

Your teachers and parents are extending emotional support to you for an effective teaching-learning process. You need to learn the skill of self-assessment and be a reflective learner.

May God Almighty keep you safe and healthy all the time and we wish to see you soon in the school.

**Mahenaz Farid**  
**Principal**
