Circular **JEE & NEET Coaching Program in School**

Dear Parents,
Greetings from IIS Dammam

We are pleased to inform you that IIS schools in KSA with patronage of the Embassy of India and support and guidance from the Higher Board are going to start the JEE and NEET Training Programme (JNTP) in school. It was a long-standing demand of the Indian parent community to start such a programme with schools' support.

IIT-JEE/ NEET preparation is a very time-consuming process and requires a lot of patience and perseverance to be successful in competitive exams.

An early start sharpens the students' logical thinking skills, increases their success rate in such exams and gives a student an edge over the other students who start coaching only later in grades 11th or 12th. It enables the student to know the basic concepts better as he/she would already have revised and practiced most of the IIT/NEET- based questions in grades 9th and 10th.

Key programme features:

- Offline programme (physical classes), unlike most education portals which offer only online classes.
- Eligibility- students going to grades 9th, 10th and 11th in the academic year 2023-24.
- Optimal student-teacher ratio to maximise learning.
- Study materials reviewed by a panel of experienced teachers.
- Course coverage of JEE and NEET Training program will be synchronized with the school CBSE portion.
- Many practice questions and revisions.
- Regular tests on the topics covered.
- Experienced and dedicated teaching faculty.
- Regular doubt-clearing sessions (physical/offline).
- Affordable fee structure.
- Purely merit-based admission on the basis of an entrance test.
- Limited batches and seats, since the programme is highly focused and result-oriented.
- Parents will be invited to attend a seminar on **15th March 2023**.

- Interested parents can go through the information provided above and fill the Google form. The link for the same is given below.

<https://forms.gle/5RDFU6KiChSQ9YHx9>

The entrance exam and the parent seminar are FREE; the programme fee for the selected enrolled students would be informed in due course of time before the list of students is finalized.

Regards,

MAHENAZ FARID
Principal
