Sub: Verification of Parent's contact numbers submitted to the school

Dear Parents,

Greetings from IIS Dammam

It is noted that some of the contact numbers submitted to the school by the parents are not reachable or are not in use and it becomes difficult for the school to reach out to the parents in times of need.

In case your ward is absent from the school on any day and if you do not receive an SMS from the school mentioning that your ward is absent then the contact number submitted by you to the school is either incorrect or not in use

You are kindly requested to verify with the respective class teachers of your ward if the contact numbers submitted in the school records are correct. If incorrect kindly get the contact number updated in the School records by meeting the school officials in the Accounts department.

Your cooperation in this regard will be highly appreciated.

With regards

MAHENAZ FARID
Principal
