Principal's Message

Greetings to all!

The field of school education is undergoing drastic changes on day today basis. The aims and objectives of education are also being redefined. Tremendous changes in the field of information technology, science, commerce, trade, industry, etc. demand education to cater to the needs of modern times. Globalization and privatization have also added many challenges to this field.

All the above factors have made education of young children complex. To ease the complexity and to reduce the stress and tension among children, CBSE has come forward with many steps. The ultimate aim is to make learning a joyous activity in the classroom and outside. The aim of education is not to load the children with information, but to develop their all-round personality and to bring them up as world class citizens. In order to achieve this, more than teaching of the conventional subjects, many other activities are organized in classrooms and outside so as to arouse the curiosity, ingenuity and creativity of the children. The scheme of uniform assessment and examination for classes I to VIII has been designed on Term Assessment basis. This would enable the children to cover-up the syllabus of the academic year and to face the challenge of the examinations.

Along with scholastic subjects, co-scholastic areas are also given importance for the holistic development of the student and will be graded term-wise on a 3 – point grading scale. The overall discipline and the submission of records, project works, notebooks etc., are also assessed and given grades in order to develop the attitude of punctuality, regularity, cleanliness etc., among the students.

Numerous activities are included in the teaching process so as to develop creativity and critical thinking skills among children. In addition to this, various co-curricular activities like sports, games, cultural and literary competitions, project works, CCA activities etc. are also incorporated in the scheme of education.

With a view to give a clear idea to parents and students regarding all the curricular and extracurricular activities taking place during the academic year, we are bringing the annual academic planner for classes I to VIII. I am sure that this planner will help teachers to organize the teaching/learning process and co-scholastic activities systematically. Parents can guide their children in studies as well as in all other activities planned for the year. Parents are advised to give more attention and care to the education of their children and in shaping their personality so as to make them world class citizens competent to face the challenges of the modern world.

With kind regards

Mrs. Mahenaz Farid

Principal
