### COMPUTER – PARTS OF A COMPUTER

The human body is made up of different parts. In the same way, a computer also has many parts which make it a machine. The main parts of a computer are:

#### Monitor

- A monitor looks like a television.
- We can see movies and cartoons on a monitor.
- Its shows us the work done on a computer.

#### Mouse

- It helps us to draw pictures.
- It has two or three buttons.
- It also points at items on the monitor.

#### CPU

- A CPU is the brain of the computer.
- It helps the computer to work according to the given commands.

#### Printer

- Printer is used to take printout on a paper.

#### Keyboard

- A keyboard has many keys on it.
- These keys are used to type letters, words and numbers.

#### A. Circle the correct answer:

1. ( CPU / Mouse ) is the brain of the computer.
2. We can type words or numbers using ( keyboard / printer).
3. ( Printer / CPU ) is used to take printout on a paper.
4. A keyboard has ( four / many ) keys on it.

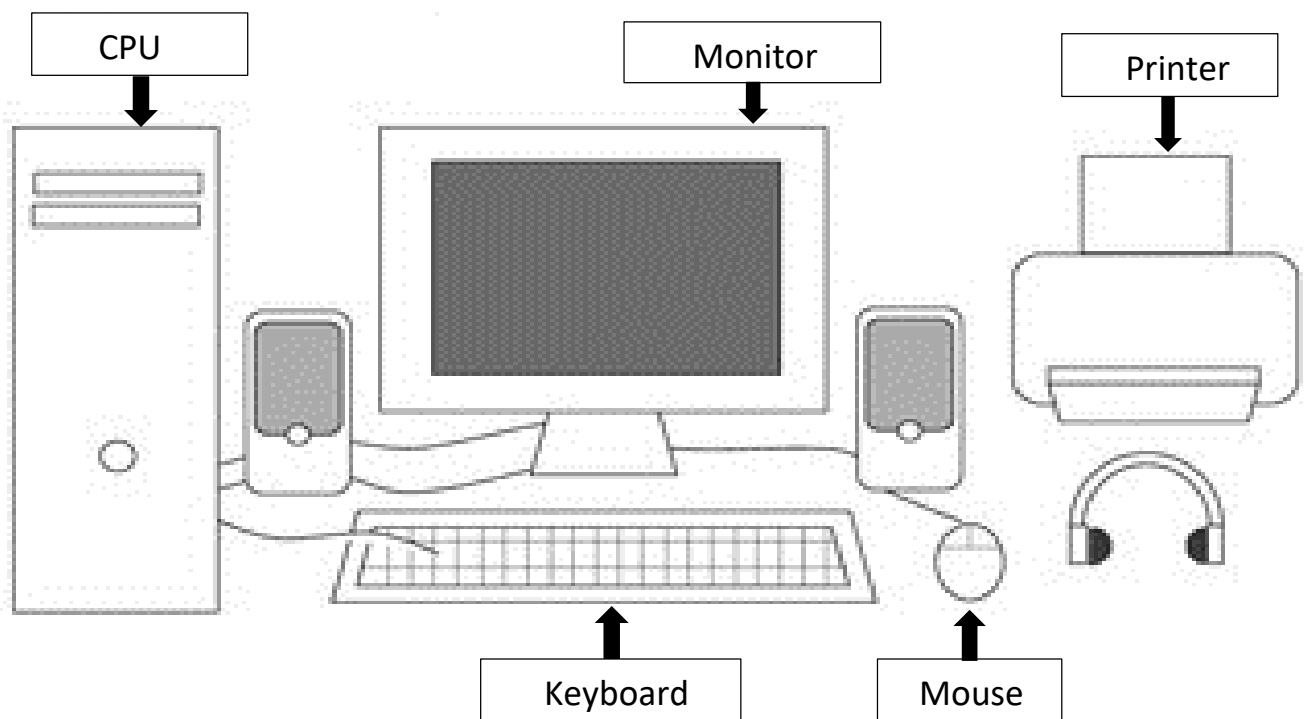

#### B. Write True(T) or False(F)

1. A monitor looks like a television.
2. A mouse has five keys.
3. We can watch stories on CPU.
4. A mouse is used to draw pictures.

**C. Match the following.**
