

INTERNATIONAL INDIAN SCHOOL, DAMMAM
UPPER PRIMARY SECTIONS
ANNUAL EXAM - REVISION WORKSHEET (2024-25)
SUBJECT – EVS

CLASS : IV

NAME- _____ SECTION - _____ ROLL NO - _____

LESSON – 1 PARTS OF OUR BODY

I.Fill in the blanks:

- 1.The doctor who is specialised in treating heart diseases is called_____.
- 2.Our brain stores information in the form of _____ .
- 3.The blood vessels that carry impure blood containing waste materials are called _____.
- 4.In mammals including humans and birds, the heart is divided into _____ chambers.
- 5._____helps in removing harmful chemicals from the body in the form of waste material.

II.Choose the correct answer:

- 1.The largest gland in our body is _____.
a.heart b. liver c. kidney d. skin
- 2.A healthy human heart beats around _____ in a minute.
a.52 times b. 62 times c. 72 times d. 92 times
- 3._____ send and receive signals from the brain.
a.Veins b. Nerves c. Arteries d. All of these
- 4.A pear-shaped muscular organ is called _____.
a.lungs b. kidney c. stomach d. heart
- 5.The _____ and lungs work together in close association.
a.heart b. brain c. liver d. liver

III.Name the following:

- 1.Gel like formation of blood that prevents bleeding - _____
- 2.A system that removes waste from our body - _____
- 3.A system that moves the blood through the body - _____
- 4.A bean shaped Organ - _____
- 5.Our food pipe is also known as - _____

IV.Write true or false:

- 1.The upper left and right chambers are called ventricles - _____
- 2.Arteries appear red in color and have thick walls - _____
- 3.The undigested food reaches the small intestine - _____

4. Blood rich in oxygen is bright red in color

- _____

5. Exchange of gases takes place in lungs

- _____

V. Identify the following organs:

1. _____

2. _____

3. _____

LESSON 5 – CLOTHES WE WEAR

I. Fill in the blanks:

1. _____ is another method in which yarns, such as wool are knitted together to make a fabric.
2. In spinning, raw fibre strands are twisted in machine to form _____.
3. _____ cotton is not only soft and comfortable to wear but also good for environment.
4. People wear different _____ for different professions.
5. A _____ is a mechanically powered loom driven by electric power used to weave clothes..

II. Choose the correct answer:

1. It is the process of colouring the fabric.
a) Dyeing b) Knitting c) Weaving
2. Ghaghra with Katchli are worn in the state of _____.
a) Rajasthan b) Kerala c) Jammu and Kashmir
3. Various designs and patterns are formed on the fabric using _____.
a) Screens b) Blocks c) Both a and b
4. We should wash some delicate clothes with _____ detergents .
a) strong b) mild c) hard
5. We wear light coloured cotton clothes in _____ season.
a) Humid b) Summer c) Winter

III. State whether 'True' or 'False' and correct the false statement:

1. Naphthalene balls and neem leaves provide protection to the woollen and silk clothes from pests and insects. _____.

2.Men in Gujarat wear phiran and salwar. _____

3.A handloom is used to weave cloth manually without using electric power. _____

4.During summer season gumboots and raincoats are worn. _____

5.We get cotton and linen from plants. _____

IV.Match the following:

- | | |
|------------------|----------------------|
| 1. Lehnga-choli | a. Uniform |
| 2. Phiran-salwar | b. Gujarat |
| 3. Angarakha | c. Blocks |
| 4. School | d. Rajasthan |
| 5. Printing | e. Jammu and Kashmir |

V.Identify these pictures:

1.-----

2.-----

VI.In the questions given below, there are two statements marked as Assertion (A) and Reason (R). Read the statements and choose the correct option.

- a.Both Assertion (A) and Reason (R) are correct and Reason (R) is the correct explanation of Assertion (A).
- b.Both Assertion (A) and Reason (R) are correct and Reason (R) is NOT the correct explanation of Assertion (A).
- c. Assertion (A) is true, but Reason (R) is false.
- d.Assertion (A) is false, but Reason (R) is true.

1.Assertion (A): Silk is a synthetic fibre.

Reason (R): Silk is produced from the cocoon of the silkworm.

LESSON-19 WORLD OF ANIMALS

I. Fill in the blanks:

1) A complete change from young form to an adult is called _____.

- 2) The process of shedding the old skin by pupa is called _____.
- 3) An unborn offspring is called _____.
- 4) A young cockroach that develops from the egg is called _____.
- 5) An _____ is the fastest running insect in the world.

II. choose the correct answer and fill in the blanks:

clusters caterpillar incubation albumen arboreal

1. Animals that spend most of their time on trees are called _____ animals.
2. A white watery substance inside an egg is called _____.
3. The male or female parent animal sits on the eggs for a few weeks to keep it warm. This is called _____.
- 4 The larva of a butterfly is called _____.
- 5.A frog lays eggs in large _____ called spawns.

III. Draw ,colour and label the parts of an egg:

IV. Label the lifecycle of a butterfly:

V. Choose the correct answer:

There are two statements given below, one is marked as assertion (A) and the other is marked as reason(R). Read the statements and choose the correct answer.

a)Both Assertion (A) and Reason) are correct and the Reason (R) is the correct explanation of Assertion (A).

b)Both Assertion (A) and Reason(R) are correct and but Reason (R) is NOT the correct explanation of Assertion (A).

c)Assertion (A) is true, but Reason (R) is false.

d)Assertion (A) is false, but Reason (R) is true.

1.Assertion (A): A cockroach pass through three life cycle stages.

Reason(R): A young cockroach is called maggot.

VI. Match the following:

- | | | |
|------------|-------------|-----|
| 1.Egg | frog | () |
| 2.Lion | herbivorous | () |
| 3.Tadpole | cub | () |
| 4.Arboreal | hatching | () |
| 5.Elephant | orangutans | () |

VII. Give two examples for the following types of animals:

1.Scavengers: _____

2.Aerial : _____

3.Carnivores: _____

LESSON-20 AIR WE BREATHE

I.Fill in the blanks:

1.When we spray deodorant in our body, it spreads and smells good which shows air _____ .

2.All living beings need _____ to survive.

3. _____ makes us uncomfortable as it leads to a lot of sweating.

4. Deforestation on a large level and increase in construction activities can leads to _____ .

5.The hot air is _____ than the cool air.

II.True or False:

1.Oxygen makes up the largest part of the air. _____

2.Air does not occupy space. _____

3.We can feel the presence of air. _____

4.Air pollution is harmful to humans, animals, and plants. _____

5.Burning waste improves the quality of air. _____

III. Match the following:

- 1. Oxygen a) Harmful gas from factories
- 2. atmosphere b) Breathing
- 3. inflated c) Layer of air around us
- 4. sea breeze d) increase in size by filling air in some thing
- 5. smoke e) wind blowing from sea to land

IV. In the questions given below, there are two statements marked as Assertion (A) and Reason (R). Read the statements and choose the correct option:

- a) Both Assertion (A) and Reason (R) are correct and reason (R) is the correct explanation of Assertion (A).
 - b) Both Assertion (A) and Reason (R) are correct but reason (R) is NOT the correct explanation of Assertion (A).
 - c) Assertion (A) is true, but Reason (R) is false.
 - d) Assertion (A) is false, but Reason (R) is true.
1. Assertion (A): Plants help to purify the air.

Reason (R): Plants release oxygen during the process of photosynthesis.

V. Name the following . Find out the words in the word grid and encircle them. The searches can be vertical and horizontal .

- 1. When the wind is pleasant and gentle, it is called _____
- 2. Process of making food by plant. _____
- 3. 78 % of atmosphere is covered by _____
- 4. Fast and strong wind. _____
- 5. Gas required for burning. _____

LESSON-24 GIFTS OF NATURE

I. Choose the correct option and write the answer in the given blank:

- Sunlight is a _____ resource.
a) renewable b) non-renewable c) depleting
- The _____ of the earth is covered with water.
a) three-fourth b) one-half c) one-fourth
- _____ is a liquid fossil fuel.
a) Coal b) Petroleum c) LPG
- Increase in population and _____ is a cause of water pollution.
a) cooking food b) growing trees c) industrialization
- _____ make our environment beautiful and clean.
a) Rocks b) Metals c) Plants

II. Give one word for the following:

- Resources available in limited quantity. _____
- The action of protecting or conserving something . _____
- Removal of upper layer of soil caused either by natural forces or activities of man.

- A natural fuel, such as coal, petroleum or natural gas, formed the dead remains of plants and animals. _____
- Extraction of non-renewable resources by digging deep into the earth.

III. Match the following:

- | | | |
|-------------------------------------|--|--------|
| 1. Replenish | - Depleting | () |
| 2. Decomposition | - is a boon for the growth of human settlement | () |
| 3. Rich fertile soil | - Petroleum, coal and natural gas | () |
| 4. Exhausting or reducing in amount | - Water, Trees and Sunlight | () |
| 5. Non-renewable resources | - the process of decaying | () |
| 6. The 3 gifts of nature | - refill or restock | () |

IV. State whether True or False for the following statements:

- Nature only includes living things, not non-living things. _____
- Trees produce oxygen, which is essential for human life. _____
- All natural resources can be recycled. _____
- Pollution is a way to protect the gifts of nature. _____
- Rocks and minerals are considered gifts of nature. _____

V. Mark these resources as R for renewable and NR for non-renewable and colour the pictures:

VI. Choose the correct answer:

- A) Both A and R are true, and R is the correct explanation for A.
- B) Both A and R are true, but R is not the correct explanation for A.
- C) A is true, but R is false.
- D) A is false, but R is true.

Assertion (A): Coal is a non-renewable resource.

Reason (R): Coal takes millions of years to form and cannot be replaced quickly.
