CONTINUATION OF ONLINE CLASSES FOR STUDENTS OF GIRLS BUILDING

Dear Parents,

Greetings from IIS Dammam!

We wish to bring to your attention an important update regarding the Girls School Building.

As you are aware, the building has been experiencing major intermittent electrical outages since 2023. Despite our continuous efforts and multiple attempts by the previous and the current SMC to resolve the issue through professional intervention, the electrical system of the 35 year old building remains totally unreliable and unsuitable for any part replacement under the current market conditions.

Considering the extreme weather of Saudi Arabia and the safety of students and staff, we are unable to provide complete assurance for resuming physical classes in the building at present.

In the best interest of the student safety and uninterrupted learning, the school will continue with online classes for all students of Girls Building until further notice.

Meanwhile, we are exploring 2 possible solutions:

1. Full rectification of the Electrical issue enabling a safe return to Girls Building
- OR
2. A shift to the Boys Block; once compliance requirements and necessary arrangements are completed.

Parents will be informed well in advance once a confirmed solution is in place.

We sincerely regret the inconvenience caused and deeply appreciate your cooperation and understanding as we work towards ensuring both safety and continuity of quality education for your children.

Thank you for your continued support.
