

Clarification on False and Misleading Messages

Dear Parents,
Greetings from IIS Dammam!

It has come to our notice that certain fake messages about school are being fabricated and massively shared on social media. **Most recently a fake message regarding the cameras in toilets is being circulated.**

Our internal investigation has found that it is completely untrue, baseless and mere rumor-mongering.

While we value the concern parents have for the school and their children, we kindly seek your cooperation to handle such sensitive matters responsibly.

We request the parents and the students to come forward and report any incidents / misbehavior or such acts if they come across in the school premises through **proper and official school channels**, instead of randomly forwarding unverified messages across social media. This will help us address issues in the right way.

Anonymous messages can:

- Create unnecessary panic among parents and well-wishers.
- Spread misinformation that leads to confusion, unrest and defamation of school.

The school assures you that your concerns will be handled carefully by taking appropriate and timely action on all disciplinary issues following the due process thereby ensuring student well-being.

However, school cannot keep track and take action / initiate an enquiry based on Social Media discussions / stories being circulated, that can be invented by anyone at any time.

We therefore request all parents to:

- Verify the authenticity of any message before sharing or reacting.
- Avoid forwarding messages from unknown or anonymous sources that lack evidence.
- Approach school authorities directly to clarify doubts or share concerns regarding sensitive matters.

Your cooperation will help us prevent unnecessary anxiety.

Those who spread false or misleading information defaming the school are cautioned and are liable to face strict action, which may also include legal steps if required.
