

SCHOOL ACADEMIC RESOURCE

Academic Year & Term	2026-2027, Term I
Class	III
Subject	EVS
Topic/Chapter	Mid-Term Revision Worksheet
Prepared by	Ms. Anjali , Ms. Rahina, Ms. Mirsa, Ms. Ruhi
Section	Upper Primary Sections
Date of Issue	01-09-2026

NAME: _____

Sec: _____

Roll No: _____

LESSON- 2: ANIMAL KINGDOM

I. Choose the correct option

- Which of these animals move by slithering?
a) spider b) sparrow c) snake d) dolphin
- The animals that eat both plants and flesh of other animals are called _____.
a) carnivores b) pollen c) swatter d) omnivores
- What do plants provide for animals?
a) only food b) only shelter c) both food and shelter d) only water
- _____ use their tail to ward off and attack enemies.
a) monkeys b) scorpions c) fish d) buffaloes
- The ability of animals to move from one place to another is called as _____.
a) enemies b) locomotion c) species d) communication
- An example of a plant-eating animal is
a) cow b) crow c) bear d) lion

II. Answer in one word

- Sweet juice found in flowers is called _____.
- Animals that eat only plants are called _____.

3. The movement of an earthworm is called _____.
4. Animal that regrows its tail is a _____.

III. Fill in the blanks

1. There are about _____ million animal species living on Earth.
2. The largest animal found in the ocean is _____.
3. Monkeys use their tail to hold and _____ things and to swing from tree branches.
4. Animals that eat only plants are called _____ and animals that feed on dead animals are called _____.
5. During the day plants take in _____ and give out _____ while making their food.
6. The fine powder that helps in plant reproduction is called _____.

IV. State true or false (correct the false statement)

1. Rats, bats, butterflies and squirrels are small animals. (_____)

2. Fish can crawl on land. (_____)

3. Lions and tigers are herbivores. (_____)

4. Some birds help in plant reproduction. (_____)

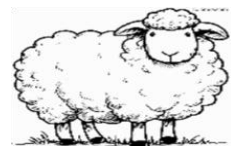

5. Dogs and cats are friendly animals. (_____)

V. Unjumble the words

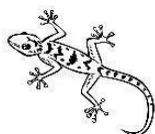

1. NOIL - _____

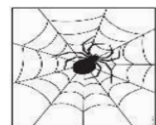

4. EEP SH - _____

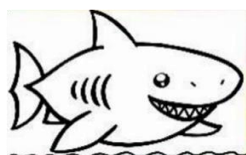

2. ZALIDR- _____

5. ERDPIS - _____

3. RKASH- _____

6. LAWUSR- _____

VI. Think and Answer

1. I use my tail to swim and change direction. Who am I? _____.
2. I am a tiny insect that makes honey. Who am I? _____.

VII. Case Study

Riya saw a butterfly sitting on a flower and drinking nectar.

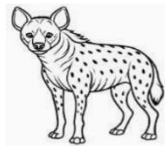

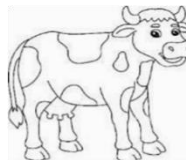

1. What is the butterfly doing?

2. Why are flowers important to butterfly?

VIII. Identify the food habits of the following animals. (Write whether each is a herbivore, carnivore, omnivore or scavenger)

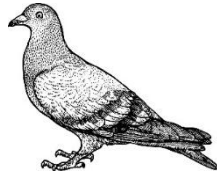

IX. Identify the birds in the images and spot them in the grid given below

G	O	X	Y	P	W	S

LESSON- 4: PLANTS -OUR GREEN FRIENDS

I. Multiple Choice Questions

1. Plants are called our green friends because they give us
 - a) Toys
 - b) Oxygen
 - c) Wood
 - d) Money
2. A _____ is a medium-sized bushy plant and has thin, woody stems.
 - a) Climber
 - b) Herb
 - c) Shrub
 - d) Creeper
3. Edible parts of lotus flower.
 - a) Seeds
 - b) Stem
 - c) Roots
 - d) All of these
4. Part of the plant that fixes the plant to soil.
 - a) Leaves
 - b) Roots
 - c) Stem
 - d) Flowers

National flower of India

II. Fill in the Blanks

1. A flower grows from _____ and produces fruits.
2. Trees and plants provide _____ on hot days.
3. A seed contains an _____ and its food.

III. State true or false (correct the false statement)

1. Stem carries water and food prepared by the leaves to other parts of the plant. (_____)
 2. A new plant germinates from leaves. (_____)
-
3. A seed needs proper light, warmth, air and water to germinate. (_____)
-

IV. Identify the pictures and write the type of plant

V. Name the following

1. The outer layer of the trunk Ans: _____.
2. Food factory or kitchen of the plant Ans: _____.
3. The process of making food by plant Ans: _____.
4. An example of a tall herb Ans: _____.
5. Birds that live in the holes in trees Ans: _____.

VI. Case Study

Riya's class went on a nature walk in the park. Her teacher showed them different plants and explained how useful they are. First, they saw a mango tree. Answer the following questions

1. What is the tulsi plant used for?

Ans: _____.

2. Why did Riya's class rest under the neem tree?

Ans: _____.

3. What did Riya learn about how flowers are useful to us?

Ans: _____.

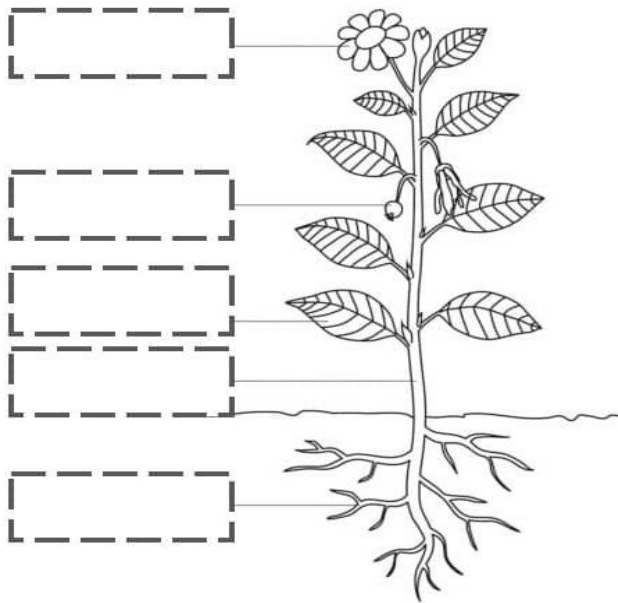

4. What are neem leaves used for?

Ans: _____.

VII. Match the Following

Column A	Column B	
1. Carrot, radish and turnip	a. Creepers	
2. Fibres obtained from plants	b. Climbers	
3. Weak plants along the ground	c. Cotton, Jute and flax	
4. Plants that need support to grow up	d. Flowers	
5. Colorful and beautiful part of plant	e. Roots	

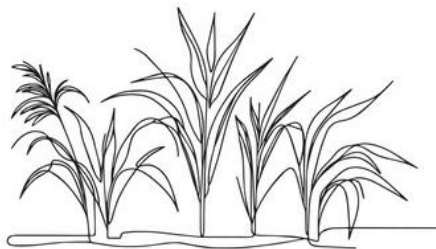

VIII. Label the different parts of a plant and colour it

IX. Think and Answer (HOTS)

1. Name the type of herb that has thin and flat leaves and whose seeds we eat as grains.

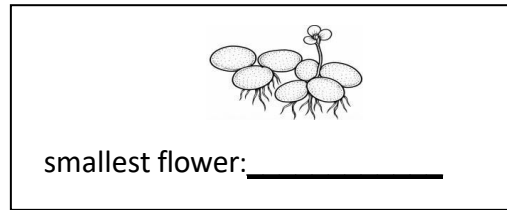

Ans: _____

LESSON-5 :LEAVES AND FLOWERS

I. Choose the correct option

1. Which bird stitches leaves together to make its nest?
(a) Sparrow (b) Tailor bird (c) Crow (d) Parrot
2. Which leaf is used as a medicine?
(a) Mango (b) tulsi (c) lettuce (d) Banana
3. Which festival is celebrated in the first week of July?
(a) Diwali (b) Holi (c) Van Mahotsav (d) Eid
4. Which part of clove is used as a spice?
(a) Root (b) Stem (c) Bud (d) Leaf

II.Fill in the blanks

- 1.Dried leaves of the _____ plants are used to make eco-friendly disposable plates.
- 2.The green colour of leaves is due to _____ .
- 3._____ leaves are used to colour the hair and palms.
- 4.Cutting down of trees is called _____.

III .Give Reason

1. Mint leaves and tej patta are used in cooking because _____
_____.
- 2.Leaves are known as kitchen of the plant because _____
_____.
- 3.Leaves like Coleus and Croton have different colours due to _____
_____.

IV. Give one word

1. A plant with needle-shaped leaves Ans: _____ .
2. Garden where vegetables are grown at home Ans: _____ .
3. Name the biggest flower in the world. Ans: _____ .
4. Name a flower with a sweet fragrance. Ans: _____ .

V. Identify the picture and colour it

VI. Match the following

Column A	Column B
1 Coconut leaves	Kitchen garden ()
2. Banana Leaves	Process of making food ()
3 Tomato	Used as plates ()
4. Marigold	Roofs of huts ()
5. Photosynthesis	Rangoli ()

VII .State true or false (correct the false statement)

1. All leaves are of the same shape. ()

_____.

2. The arrangement of leaves on branches helps the plant to get maximum sunlight. ()

_____.

3. Cauliflower is used as a fruit. ()

_____.

VIII. Think and Answer

1. I am the largest leaf in the world. I can grow very wide and float on water. Who am I?

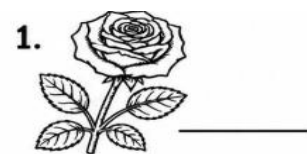

Ans: _____.

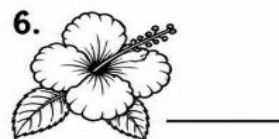

2. What are colours made from dried flowers used for?

Ans: _____.

IX. Find the flower names and label each flower correctly.

R	O	S	E	A	B	C	D	E	G

X. Identify the shape

_____ Shaped flower

_____ Shaped flower

_____ Shaped flower

XI. Case base

Read and answer:

Aarav saw a plant with broad green leaves and bright yellow flowers. Many butterflies were flying around it.

1. Name a plant with yellow flowers.

Ans: _____

2. What might happen if the plant did not have leaves?

Ans: _____

LESSON 14: OUR HOUSE

I. Choose the correct option

1. People living in snowy regions usually build
a) Houseboats b) Igloos c) Tents d) Stilt houses
2. Which house can move from one place to another?
a) Apartment b) Caravan c) Bungalow d) Flat
3. Which of these is a temporary house?
a) Tent b) Flat c) Bungalow d) Apartment
4. Why do we need windows in a house?
a) To keep books b) To let in fresh air and sunlight c) To store clothes d) To cook food
5. Which material helps make buildings strong?
a) Cement b) Wool c) Plastic d) Rubber

II. Fill in the blanks

1. The process of _____ is the most important stage in building a house.
2. The sun-dried bricks are baked in a _____.
3. A smart home is a home where electronic devices can be controlled remotely by a _____ or a _____.
4. The _____ is a UNESCO World Heritage Site, made of ivory – white marble.
5. _____ are temporary houses used by soldiers, are made up of _____ or _____.

III. Give one word

1. An independent house that may be one - storey or only a single floor.
Ans: _____.
2. Location containing street, road, city and state.
Ans: _____.
3. Another name for rangoli in the southern states of India?
Ans: _____.

IV. Find the odd one out

1. street, city, road, planet
2. mops, helmets, safety vests, sturdy footwear
3. bungalow, multi storey building, caravan, train
4. lamps, flowerpots, rangoli, phenyl

V. State true or false (correct the false statement)

1. The location of house is the only factor responsible to decide the type of house to be built.(_____)

_____.

2. Multi storey building found in cities have many flats, offices and shops. (_____)

_____.

3. Building a house is an instant process. (_____)

_____.

4. Cleaning the house is the responsibility of everyone living in it. (_____)

_____.

VI. Underline the cleaning tasks that are to be done daily in yellow, and the ones that can be done weekly in blue.

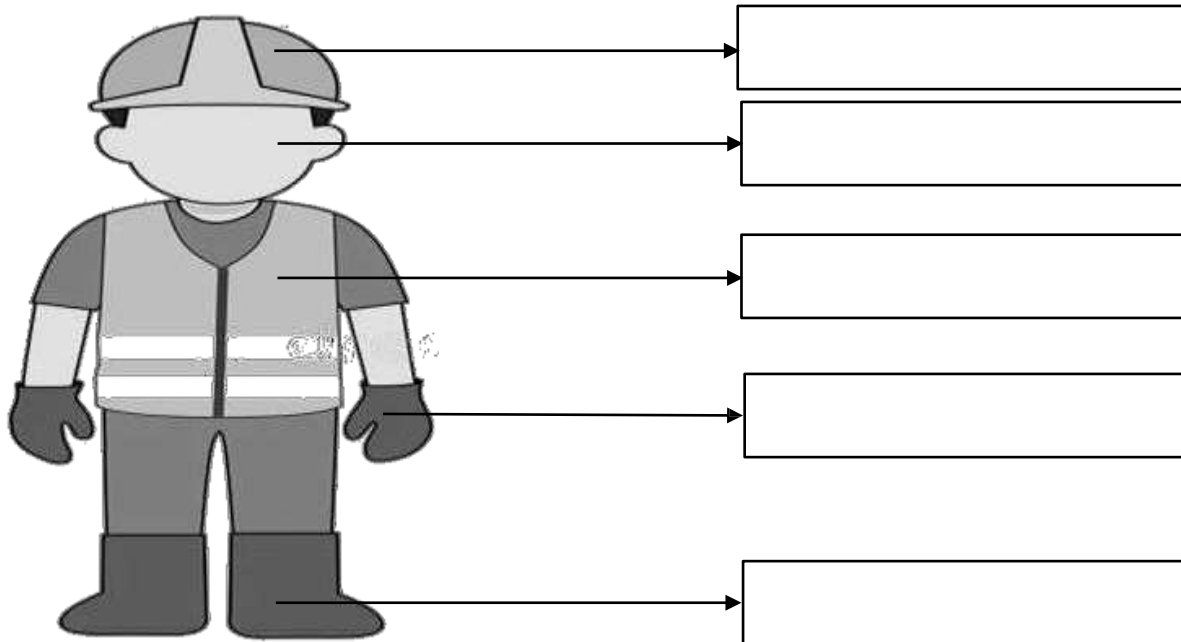

sweeping, cleaning cupboards, changing bed sheets, picking up the clutter, mopping,

putting away shoes, organizing bookshelf, removing cobwebs, arranging pillows on bed

VII. Case study

Building a house is challenging. Workers wear protective gears, to remain safe. Can you label these safety gears? According to you, what more can be added in the picture for the workers safety? Draw and label that.

Safety goggles, Safety helmet, Sturdy footwear, Safety vest, Safety gloves

VIII. Label the type of house, region its found in and mention if its permanent or temporary
